

Dani Zaghian

Full-stack web developer and designer crafting applications that are highly functional, memorable, and beautiful. Motivated by a growth mindset and passionate about learning.

EXPERIENCE

Head of Web Development

Podium Education

March 2022 - current in San Francisco, CA

Led and managed a high-performing team of 11+ technical educators, providing comprehensive training, support, and coaching.

Collaborated cross-functionally with partnerships, sales, success, and marketing teams to develop, deliver, and instruct the undergraduate web development experience to over 60 universities and 10,000 students across the US.

Developed and delivered engaging webinars on a range of technical topics, including APIs, as well as global skill topics such as fostering effective workplace feedback.

Senior Instructor and Director of DEI

Actualize

January 2017 - March 2022 in San Francisco, CA

Lead instructor and Curriculum Developer for a 12 week coding bootcamp covering Ruby, Rails, Git, Github, JavaScript, Vue, React, SQL, PostgreSQL. Provided project planning, career coaching, and management guidance. Led partnership initiatives for diverse classrooms and advocated for inclusion in tech.

Front-end web developer and UI/UX designer

Terrace Consulting

April 2016 - December 2016 in San Francisco, CA

Worked as a consultant on tech teams to create applications for clients using a variety of technology stacks. Project managed and worked one-on-one with large clients to create, implement, and iteratively revise software solutions.

Full-stack web developer and instructor

General Assembly

Sep. 2015 - Dec 2016 in San Francisco, CA

Taught web development principles, computer science, programming languages, and libraries/frameworks, focusing on MEAN stack and Ruby on Rails. Created and led algorithm/whiteboard interview prep sessions for students and recent alumni.
